

BOOK ON VEGETABLE PRODUCTION

Published by IAHS,
Bangalore, in Dec'2007.

Price: Rs. 200

Total No. of pages: 177
including 16 colour plates
of IAHS hybrids/varieties

The Indo-American Hybrid Seeds (India) Pvt. Ltd., (IAHS) is the first innovative Seed Company in the country, which launched and popularized F1 hybrids in tomato and capsicum way back in 1973.

Hybrid technology in vegetables is of a special kind, which the growers have to learn and follow, to get high productivity. IAHS, through the years of experience, have formulated the package of practices, which have greatly benefited the farmers to such an extent that hybrid varieties of vegetable crops of IAHS presently have large area coverage in the country.

This book acknowledges the dedication and outstanding

contribution of eminent senior scientists like Dr. Vishnu Swarup, Dr. K.P.V.Shetty, Dr. S.S. Chatterjee, Dr. V.S. Seshadari, Dr. B.B.Madalageri *et.al.*, who have rich experience in vegetable breeding and recognition at the national and international level.

IAHS is pleased to publish this book which will be very useful to vegetable growers, agricultural students, consultants, extension workers and nurserymen. This book gives in a concise form the practical aspects of production of the varieties/ hybrids of IAHS in some of the major vegetables crops.

It is hoped that this publication will be found useful to all engaged in the national endeavour for increasing vegetable production.

The book comprises of 16 chapters in two parts:

PART I

1. Soil and Water in nutrition of vegetable crops
2. Water management
3. Nutrient management
